RE: 2008 Bond Construction – End of Year Report

Dear Mr. Kment and Board of Education:

Enclosed please find the 2008 Bond Construction – End of Year Report. At the end of last year's report, we predicted 2008 would make a very busy 2007 look like a slow freight train. This year, 2008, was not only a fast train ride, but we leapt to the speed of a jet plane ride. Almost every day had a new challenge and a new fire to put out. However, as the new buildings and remodeling projects take shape, each challenge and each fire will become vague memories compared to the District pride that will beam as we plan for grand openings in 2009.

Thank you for your guidance and support.

Very truly yours,

Jere Diebold, Bond Coordinator
Roseville Community Schools
